REPORT ON THE DISTRIBUTION OF RELIEF GOODS
For Typhoon-Affected Residents of Canlaon City
November 14, 2025

The Student Affairs and Services (SAS) Office, together with the National Service Training Program (NSTP) and Community Extension Program, successfully conducted a relief goods distribution activity for the affected residents of Canlaon City following the recent typhoon. This initiative was organized in response to the urgent needs of the community after the severe impact of the calamity, which left many families displaced and struggling with limited access to basic necessities. In partnership with local barangay officials and community leaders, the team coordinated the gathering, packing, and delivery of essential relief items such as rice, canned goods, and other emergency supplies.

Overall, the relief distribution for typhoon victims in Canlaon City was carried out efficiently and meaningfully, fulfilling the program's objective of providing timely support to disaster-stricken communities. The SAS and NSTP offices reaffirm their commitment to continuing similar initiatives that promote civic consciousness, community involvement, and humanitarian assistance in times of need.
